Eggro
GRANULES

Precision Nutrition for Top-Quality Eggs

Composition :

- ✔ **Yeast Hydrolysate (YH)** : supports optimal gut health.
- ✔ **Essential Amino Acids** : Enhances egg production and quality.
- ✔ **Vitamin B Complex** : Provides metabolic support.
- ✔ **Comprehensive Mineral Mix** : Strengthens eggshells and supports skeletal health.
- ✔ **Bioactive Chromium** : Boosts metabolism and energy levels in layer hens.

Benefits :

- ✔ **Enhances Egg Production & Quality** : Achieve higher yields of top quality eggs.
- ✔ **Support Strong & Healthy Eggshells** : Reduce breakage and improve durability.
- ✔ **Improves Nutrient Absorption & Utilization** : Maximizes feed efficiency.
- ✔ **Promotes Gut Health & Overall Well being** : Ensures a healthy, thriving flock.
- ✔ **Maintains Optimal Body Condition** : Keeps hens in peak physical form.
- ✔ **Boosts Metabolism and Energy Levels** : Enhances vitality and productivity.

Recommendations :

- ✔ **Layer Hens** : Mix 500 - 1000 gm per ton of feed.
- ✔ **Molted Birds** : Mix 500 gm per ton of feed once birds reach 50% egg production and continue until the end of the lay period.
- ✔ **Preventative Program** : Mix 500 gm per ton of feed before any expected eggshell issues or once chickens reach 4-5 months of laying.
- ✔ **Treatment program** : For eggshell problems, mix 2 kg per ton of feed for one week, then 1 kg per ton for next week, and finally 500 gm per ton until the end of the lay period.

Why Choose Eggro Granules ?

- ✔ **Scientifically Formulated** : Designed by experts to meet the Specific nutritional needs of layer hens.
- ✔ **Proven Results** : Trusted by poultry farmers worldwide for its effectiveness.
- ✔ **Easy to Use** : Seamlessly integrates into your existing feed regimen.
- ✔ **Cost Effective** : Boost your profits with more sellable eggs and reduced feed costs.

**POULTRY FEED
SUPPLEMENTS**

Chick Gro is an highly bioavailable functional nutrients essential for sustained growth, uniformity and peak production. Chick - Gro rich in essential amino acids, trace elements, live Function Growth Promoters.

COMPOSITION:

Each 100ml Contains: Protein Hydrolysate to supply proximate content of nutritionally essential amino acids along with other nutrition.

FEATURE :

- Unique combinations
- Highly bioavailable from of nutrients
- Rich in essential amino acids
- Provides extra energy and proteins for growth

BENEFITS :

- Improves weight gain
- Better FCR
- Ensures better ROI

RECOMMENDATION:

- Broiler, Breeder, Layer
- 15-20 ml/100 birds

Liv-O-Rich

Liv-O-Rich is a Hepatoprotective, Regenerative and stimulant for Ruminants and pet animals. It is a mixture of aminoacids and vitamins required for growth and development of livestock.

FEATURE :

Silymarin : Excellent hepatoprotective. Enhances liver detoxification.

Tricholine citrate, Choline & Inositol : Mobilizes fat from liver. Improves absorption of vitamin.

Biotin : Fiber digestion. Positive energy balance Ovulation

Enriched with methionine, Vitamin E & B complex

RECOMMENDATION:

Anorexia / Hepatitis / Debility / Stress
Mycotoxiosis / Fatty liver / Toxemia
Hypoproteinemia / Anaemia
Better Production & Performance

ADMINISTRATION :

Cattle, Buffalo: 30 - 50ml/day
Sheep, Goat & Pig: 10-15 ml/day
Dog & Cat: 5-10 ml/day
Poultry: 10-20 ml / 100 birds

BENEFITS :

Protects liver damage from various toxins / Rejuvenate liver cells
Controls stress and liver disorders / Enhances milk production

Eggro

Liquid Organic Calcium
Enriched with Vitamins,
Chromium & Iron

Calcium and Phosphorus are major elements that play vital role in skeletal integrity in Poultry and egg shell quality in Layers.

Organic source of Calcium Gluconate and Phosphorus enriched with Trace minerals and Vitamins which enhance the mineral absorption and optimizes stress and Immunity.

FEATURE :

- Highly bio-available minerals & vitamins.
- Rich in Vitamin D3 and Vitamin B12.

BENEFITS :

- Vitamin D3 improves Ca & P absorption
- Improves egg shell quality
- Reduce the incidence of Leg Weakness.
- Optimizes stress and immunity

MIXING RATION :

- Layer: 20 ml/100 - birds / day

STRESS FREE
SOLUTION FOR
SUMMER

COMPOSITION:

Each 10 ml

BENEFITS :

- Optimize stress
- Maintains Osmolarity in Cell
- Act as Antioxidant
- Improves Livability

RECOMMENDATION:

- Broiler, Layer & Breeder: 5-6 ml/100 Birds
- Chicks: 3-4 ml / 100 Birds
